REPORT OF SCHOOL BOARD

In submitting the report of schools for the year ending February 15, 1904, we would call attention to these facts. With one or two exceptions, on account of illness among teachers or pupils, there have been given each district in town thirty-six weeks of school—an increase of four weeks over the previous year. This has been made possible by a continuance of the State aid granted us last year for the first time, and which was obtained only by keeping the attendance up to the point required by law. We wish to emphasize the fact that our help from the State (\$324.63 this year) depends upon the attendance. The statutes require attendance at school of all children between the ages of eight and fourteen years. Your Board has endeavored to enforce that law.

Our special repair tax has been mainly expended in reshingling, that being the great need. Still more should be done in that direction.

Requests have been made that the Board give the Roll of Honor for the year in this report. We regret that as the winter term is not completed at the time this is written we are unable to do so, but we are informed that it will probably equal 40 per cent of our entire membership.
